# RANCH D

Anti-Terrorism bollards

Permanent anti-terrorism bollard tested according to international standards PAS 68:2010 7500/50/N2 crash simulated. Suitable for protection of sensitive sites.

Anti-Terrorism bollards

RANCH D
Code	Name	Description
P970104 00002	**RANCH D 275/800CN L**	Fixed anti-terrorism bollard, shaft height 800 mm and diameter 273 mm. Painted shaft version, RAL 7015. Flange not included. Cap with lights. High ramming resistance.
P970104 00102	**RANCH D 275/800CN L - RAL**	Fixed anti-terrorism bollard, shaft height 800 mm and diameter 273 mm. Version with painted steel shaft, RAL colour to order. Flange not included. Cap with lights. High ramming resistance.
P970104 00003	**RANCH D 275/800CN**	Fixed anti-terrorism bollard, shaft height 800 mm and diameter 273 mm. Painted shaft version, RAL 7015. Flange not included. Cap with lights.
P970096 00002	**RANCH D 275/800C LI**	Fixed anti-terrorism bollard, shaft height 800 mm and diameter 273 mm. Version with stainless steel covered shaft. Flange not included. Cap with lights. High ramming resistance.

What is U-Link?

The technology that gives you more power

U-Link, Universal Link, is an exclusive
BFT platform that can be used to create
high-tech ecosystems.
In Home Access Automation, it can be
used to communicate with all home
access automation devices of any brand.
This saves you time and allows you to
control everything easily and without
any worries.

It is intuitive
Easy to install and to use

It is scalable
You can add as many devices as you want

It is flexible
It allows you to create groups of interconnected products

It is practical
Works with or without an internet connection

It is functional
Its settings can be controlled remotely using dedicated applications

Everything on one screen: find out more about this amazing technology

A world-exclusive platform that can be used to create high-tech ecosystems offering a vast range of solutions for many different sectors.

This proprietary platform which is a key feature of BFT products, thanks to the B-EBA cards and the Clonix U-Link receiver, is suitable for any protocol or product for access automation (including BFT products non-BFT ones and older versions) and it can be used in a variety of different sectors. This means any device becomes a smart device which can be interconnected with other systems, using a language that is becoming universal.

U-Control HOME
U-Control HOME is the application that allows you to open the gate to your home and to remotely control BFT automations using your own smartphone. The iOS version can be used to automatically open the automation when you are close to it.

U-Base 2
A software package for installation, performing maintenance and identifying any faults in the U-Link compatible operators, easily and conveniently.

U-SDK
U-SDK is the application which allows BFT automations to be made compatible and easily integrated with a BMS network.

Clonix U-Link
Connect non-native U-Link and non-BFT products to U-Link systems.

Is it possible to connect non-native U-Link BFT operators or other brands of products to U-Link? Yes, thanks to the Clonix receivers. Accessories which accept no limits.

B-EBA
A direct link to your operators.

The B-EBA expansion cards make it possible to connect external devices such as PCs, smartphones and tablets to a BFT operator and a Clonix receiver or to connect multiple BFT products in a U-Link network. These accessories integrate with U-Link technology and with Bluetooth, Wifi, Z-Wave and TCP/IP protocols as well as with the RS485 serial interface. A device that demonstrates exactly what BFT means by interconnectivity.
